### ● Message :

Dear Mr Pawlik,

My name is Vaggelis Segredakis and I am the administrator for the [.GR] ccTLD.

I participated yesterday in a presentation that took place at the CENTR GA Meeting in Luxembourg and I was informed about the ENUM project of which I had limited knowledge until then.

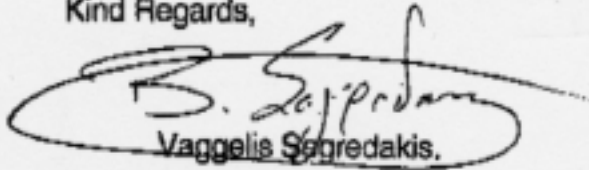

Since we are the registry of the [.GR] and we are under the supervision of the National Committee of Telecommunication and Post Offices we think that we are a suitable organization to become the registry for the domain 0.3.e164.arpa. I know that you do not formally accept applications but I would very much appreciate it if you would keep this application in priority for the time you officially start accepting them, as you already have done in the DENIC application for 9.4.e164.arpa.

We are a non profit foundation (FOUNDATION FOR RESEARCH AND TECHNOLOGY HELLAS – FO.R.T.H.) and we are always willing to operate in the best

interest of the INTERNET local community of Greece and – if we are delegated as the registry for 0.3.e164.arpa - also the local telecommunications community.

Thank you in advance for your attention.

Kind Regards,

Vaggelis Sgredakis.
